INDEPENDENT AUDITORS' REPORT

To the Mayor and City Council Bessemer, Alabama

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, the aggregate remaining fund information, and the budgetary comparison for the General Fund of the City of Bessemer, Alabama (the "City"), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Government Utilities Service Corporation (component unit), which represent 20 percent, (50) percent, and 6 percent, respectively, of the assets, net position, and revenues of the City.

Those statements were audited by another auditor whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for the Government Utilities Service Corporation, is based solely on the report of the other auditor.

As discussed above, the financial statements of the City of Bessemer as of September 30, 2020, and for the year then ended have been restated [revised].

As discussed in Note 21 to the financial statements, the September 30, 2020 financial statements have been restated to correct a misstatements, errors, and omissions.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

1

We Work Hard to Give You Our Very Best

2100 South Bridge Parkway, Suite 650 • P.O. Box 360973 • Birmaingham, Alabama 35236 • 205-542-9874 • Fax: 205-822-0539 www.tpaaccountants.com • Eugene.Pitts@CPA.com

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter

As discussed in Note 22 Subsequent Event, effective March 19, 2020, the City closed its lobby for at least five months and has temporarily required that some employees work remotely from home where possible. At this point, the City cannot reasonably estimate the duration and severity of this pandemic, which could have a material adverse impact on the City's business, results of operations, financial position and cash flows in the year ending September 30, 2020. Management's evaluation of the events and conditions and management's plans to mitigate these matters are also described in Note 22.

Basis for Qualified Opinion on the Aggregate Discretely Presented Component Units

The financial statements of the Bessemer Airport Authority (BAA) have not been audited, and we were not engaged to audit the BAA financial statements as part of our audit of the City's basic financial statements. BAA's financial activities are included in the City's basic financial statements as a discretely presented component unit and represent 12 percent, (30) percent, and 25 percent of the assets, net position, and revenues, respectively, of the City's aggregate discretely presented component units.

Qualified Opinion

In our opinion, except for the possible effects of the matter discussed in the "Basis for Qualified Opinion on the Aggregate Discretely Presented Component Units" paragraph, and based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of the aggregate discretely presented component units of the City as of September 30, 2020, and the changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, based on our audits and the report of the other auditor, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business- type activities, each major fund, and the aggregate remaining fund information of the City, as of September 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of OPEB funding progress, the schedule of Changes in Net Pension Liability, and the Schedule of Employer Contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditor have applied certain limited

procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, supplementary information and supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, schedule of expenditures of federal awards, and schedules listed in the table of contents are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and the other auditor.

The introductory section has not been subjected to the auditing procedures applied by us and the other auditor in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated September 17, 2021, except for Note 21, as to which the date is September 6, 2022 on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The City of Bessemer's (the "City") discussion and analysis report provides an overview of the City's financial activities for the fiscal year ending September 30, 2020. The purpose of the Management's Discussion and Analysis (MD&A) is to provide a narrative about the transactions, events, and conditions that are reflected in the government's financial report and of the fiscal policies that govern its operations. Thus, both a short and long-term analysis of the government's activities will be presented.

FINANCIAL HIGHLIGHTS

- The City decreased its outstanding Warrants Payable by \$2.6 million in fiscal year 2020.
- The General Fund had an unassigned fund balance of \$11.5 million in 2020.
- The liabilities and deferred inflows of the governmental activities of the City exceeded its assets and deferred outflows at the close of the fiscal year ending September 30, 2020, by \$45,762,272. Of this amount, \$64,922,498 is invested in capital assets, \$5,927,702 is restricted and a deficit of \$(116,612,472) is unrestricted.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$24,081,324.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements, which are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. In addition to the basic financial statements, this report contains other supplementary information.

Government-Wide Financial Statements

The government-wide financial statements (see pages 14 - 16) are designed to provide readers with an overview of the City's finances in a manner that resembles that of private sector businesses. In these statements, governmental activities and business activities are consolidated into two columns, which are added together for a total for the City as a whole. In order to consolidate the two types of activities, they must both utilize the same measurement focus. Thus, the government-wide statements utilize the economic resources measurement focus and accrual basis of accounting. This contrasts with the fund financial statements, to be discussed later, which utilize the financial resources measurement focus and the modified-accrual basis of accounting.

Two statements comprise the government-wide statements. They are the Statement of Net Position and the Statement of Activities. Both of these statements provide information about the activities of the City as a whole and present a long-term view of the City's finances.

The Statement of Net Position presents information on all of the City's assets, liabilities, and deferred inflows and outflows of resources, with the difference reported as net position. This statement combines and consolidates governmental funds current financial resources (short-term spendable resources) with capital assets and long-term debt. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position for the City is improving or deteriorating.

The Statement of Activities presents information on both the gross expenses and the net costs, as well as how the government's net position changed during the most recent fiscal year. This statement is intended to facilitate the user's analysis of the cost of various governmental functions and/or subsidy to business-type activities. Revenues and expenses are posted in this statement for items that will result in cash flows for future fiscal periods. Both of the

government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their cost through user fees and charges for services (business-type activities). The governmental activities of the City include general government, public safety, municipal court, streets, sanitation, and recreation services. The business-type activities of the City include electric service, water service, and civic center.

Fund Financial Statements

Fund financial statements provide more detailed information about the City's most significant or major funds, not the City as a whole. Funds are accounting mechanisms that the City uses to keep track of specific sources of funding and spending for a particular purpose. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The City has two types of funds: governmental funds and proprietary funds.

Governmental Funds

Most of the City's basic services are included in governmental funds, which focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of government funds is narrower than that of the government-wide financial statements, it is useful to reconcile the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. This reconciliation may allow readers to better understand the long-term impact of the government's near-term financing decisions. As a result, the governmental fund balance sheet provides a reconciliation to facilitate this comparison between governmental funds and governmental activities (see page 18). The City maintains twelve individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the general fund and the debt service fund, which are considered to be major funds. Data from the remaining ten nonmajor governmental funds are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements later in this report (beginning on page 90).

The City of Bessemer adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with the general fund budget.

Proprietary Funds

Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. The City maintains three enterprise funds (a component of proprietary funds), Bessemer Civic Center, Bessemer Electric Service, and Bessemer Water Service. Enterprise funds are the same as the business-type activities reported in the government-wide financial statements but provide more detail and additional information such as cash flows for proprietary funds.

The proprietary fund financial statements on pages 21 through 25 provide separate information for the Bessemer Civic Center, Bessemer Electric Service, and Bessemer Water Service, and are considered to be major funds of the City.

Component Units

Complete financial statements and/or other financial information for the discretely presented component units may be obtained at the administrative offices of the Governmental Utility Services Corp and the Bessemer Airport Authority. The statements are presented on page 26-28.

Notes to the Financial Statements

The notes to the financial statements provide additional essential information that will illuminate understanding of the data represented in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information that has resulted from the implementation of GASB Statement No. 34 which requires governments to report infrastructure and depreciate their capital assets.

Government-Wide Financial Analysis

Total Primary Government Net position may serve over time as a useful indicator of a government's financial position. In the case of the City, liabilities and deferred inflows exceeded assets and deferred outflows by \$(29,983,852) at the close of the most recent fiscal year.

The City's net position that is invested in capital assets reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other revenue sources, since the capital assets themselves cannot be liquidated to satisfy these liabilities.

The City's Total Primary Government net position increased by \$500,489 during the fiscal year ended September 30, 2020.

Government Activities

The City's net position for governmental activities decreased by \$(4,685,216). This decrease was the result of a variety of factors, including an increase to the OPEB liability.

Business Type Expenses

The City's net position for business-type expenses increased by \$5,185,705.

Governmental Activities

The City's total governmental fund balance increased \$3,668,828 from \$20,350,496 in fiscal year 2019 to \$24,019,324 in fiscal year 2020.

The City had a total unassigned fund balance at the end \$11.5 million at the end of fiscal year 2020. This unassigned fund balance is a good indicator of the City's ability to meet its' current obligations.

Fund Financial Analysis

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Using funds to account for the resouces for particular purposes helps the reader to determine the City's accountability for these resources whether provided by tapayers and or other entities, and to help provide more insight on the City's overall health.

Governmental Funds

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Changes in fund balances for governmental funds for the fiscal year ended September 30, 2020, are as follows:

Governmental Funds Fund Balances As of September 30, 2020, and 2019

	Fund Balance	Increase	Fund Balance		
	2019	(<u>Decrease</u>)	2020		
General Fund	\$ 15,007,717	\$ 3,152,905	\$ 18,153,622

Budget Variances in General Fund Budget For Year Ended September 30, 2020

	<u>Budget</u>	<u>Actual</u>	<u>Variance</u>
Assigned Funds on Hand	\$ 2,006,153	\$ -	\$(2,006,153)
Revenues	<u>58,046,955</u>	56,580,746	(1,466,209)
Total	60,053,108	56,580,746	
Expenditures	60,053,108	53,580,744	6,472,364
Excess of Revenue Over/Under	<u>\$</u> 531	3,000,002	3,000,002
Other Financing Sources/Uses	129	410,526	410,526
Net Change in Fund Balance	\$	\$3,410,528	\$ <u>3,410,528</u>

The City's budget included funds on hand in the amount of \$2,006,153.

During fiscal year 2020 fiscal year, actual revenues, excluding funds on hand, exceeded actual expenses by \$3,410,528. This is due to multiple variables such slight increases in sales tax revenue and occupational tax revenue, as well as management's ability to operate within allocated budgets.

CAPITAL ASSET AND LONG-TERM DEBT ACTIVITY

Capital Assets Activity

The City's investment in capital assets as of September 30, 2020, amounts to \$65,051,608 for governmental activities. This investment in capital assets includes land, buildings, improvements, machinery and equipment, and infrastructure. The notes to the financial statements report more information on capital assets, including changes that occurred during the fiscal year.

Economic Factors Affecting the City of Bessemer and the 2020 Budget and Debt Information

The City of Bessemer ended 2020 on a high note economically, despite a worldwide pandemic.

Amazon opened the State of Alabama's first Robotics Fulfillment Center in Bessemer in spring 2020. The facility employed upwards of 5,000 full and part-time workers by December 2020, making it the largest employer in the city. Wages at the facility start at \$15 an hour.

Additionally Amazon announced plans in 2020 to open a Delivery Station on Lakeshore Parkway in Bessemer which will employ another 200 or so full and part-time employees when it opens in the fourth guarter of 2021.

Carvana, Lowe's Home Improvement and FedEx each announced plans in 2020 to open distribution centers in Bessemer. The new facilities will employ an estimated 1,000 people when fully operational. The FedEx facility will span the jurisdictional lines between Bessemer and the city of Birmingham.

The number of persons employed in various occupations in Bessemer has risen from 14,967 in 2008 to 17,837 in 2020. These numbers do not include the full number of workers employed at Amazon's facility on Powder Plant Road as of December 2020 or the new employees connected with the upcoming distribution centers at Carvana, Lowe's and FedEx.

The numbers of Bessemer residents employed in various occupations stood at 9,950 in December 2020, according to Census estimates. This is slightly less than the 10,970 persons living in Bessemer who were employed in 2010. However, these figures do not account for the loss in the overall population in the city between 2010 and the most recent Census estimates. The city's population in 2010 was 27,672 and is estimated at 26,680 in 2019.

Bessemer ended 2020 with a labor force participation rate of 53.9 percent. The unemployment rate in the city was 7.0 percent as of December 2020, according to the Alabama Department of Labor. This is higher than the 3.7 percent rate in December 2019, according to the agency, and can be attributed to the impacts of the pandemic on the workforce.

The median household income in Bessemer is \$31,160 and the median house value is \$83,500.

With the growing job market in Bessemer, the need for workforce housing continues to grow. The city's Building Inspections Department reported \$41.9 million in permits for commercial projects and \$3 million for residential projects within Bessemer last year.

Construction began in 2020 on two new hotels in the Academy Business Park area. In addition, two new seafood establishments opened in the business park off Interstate 20/59 in 2020. Construction began in 2020 on the city' first free-standing Starbucks Coffee Shop along Academy Drive.

The Census Tract that includes Downtown Bessemer and the city's Downtown Historic District is designated as an Opportunity Zone by the United States Treasury. Opportunity Zones were created in the Tax Cut and Jobs Act in December 2017. The city has reorganized its Downtown Redevelopment Authority and contracted for master planning of the Downtown neighborhood to promote growth in the city core. The city received a \$300,000 EPA Brownfield Assessment grant in 2020 to assist with redevelopment of the downtown.

Finally, the Bessemer Airport Authority announced completion of a 14,220-square foot, \$760,000, 10-unit hangar in June 2020. The hangar is currently at full capacity. The Airport has over 20 aircraft owners on a hangar wait list and is evaluating a feasibility study for constructing additional hangars. A \$2.7 million FAA Runway Renovation Project was also completed at the Airport in 2020.

The City anticipates continued economic growth in 2021 and will continue to explore ways to attract new business and

industry into its corporate limits. The demand for housing for these workers is already emerging in the city's planning efforts. Bessemer is open for business and wants to retain a solid reputation of being business-friendly and a great place to call home.

Budget Information

On or before October 1 of each year, City Administrators prepare and submit an annual budget to be adopted by the City Council. The comparison of the FY 2020 general fund budget to the actual results is detailed in the "Statement of Revenues, Expenditures, and Changes in Fund Balances" - Budget to Actual.

The budget for fiscal year 2019-2020 was passed for \$60,053,180.

Capital Assets and Debt Administration - Governmental Activities

Capital Assets – The City's total capital assets for governmental activities for the year ended September 30, 2020, amounted to \$65,051,608, net of accumulated depreciation. The City's investment in capital assets includes land, infrastructure, buildings, furniture and fixtures, equipment, vehicles, and construction in progress. The City's assets are valued at historical cost where available and estimated historical cost where actual cost is not available.

Debt – The City had long-term debt of \$64.83 million at the end of fiscal year 2020. Long-term debt includes warrants payable, capital lease payable, and compensated absences. The City decreased its governmental activities long-term debt by \$2.2 million during fiscal year 2020.

Bessemer Utilities - Electric

During fiscal year 2020, the Electric Service continued its' upgrade of transmission lines and maintenance of substations and equipment.

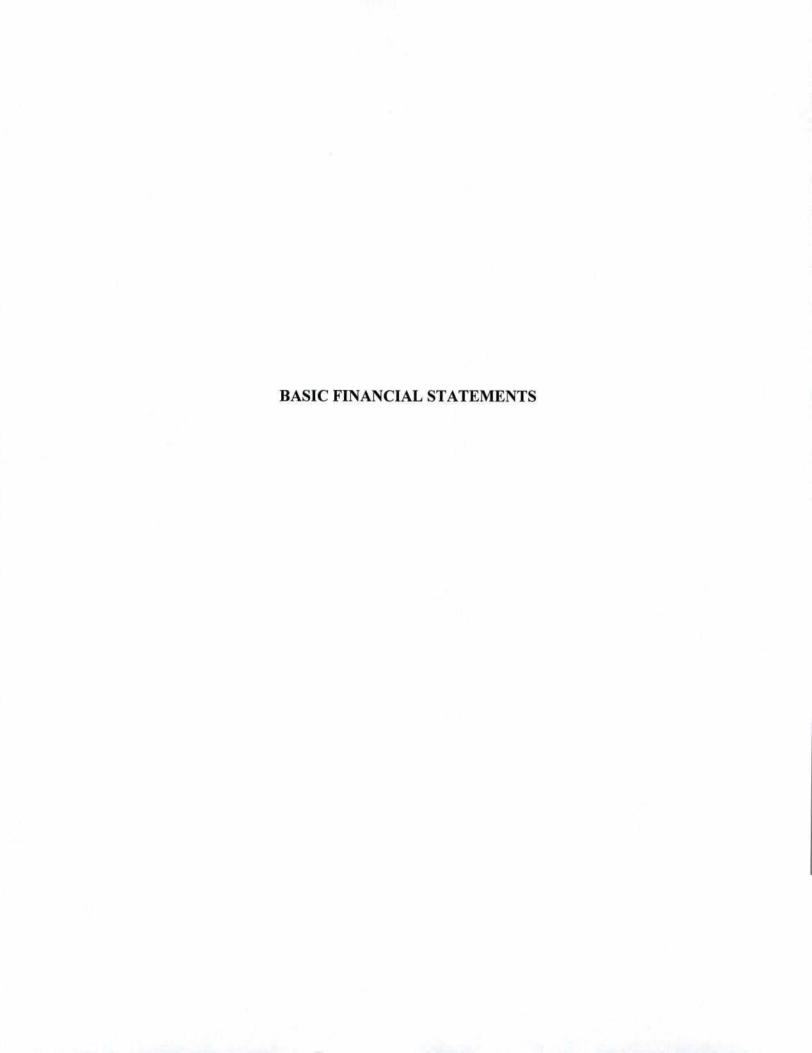

Bessemer Utilities - Water

During fiscal year 2020, Bessemer Water Service continues to evaluate its need for capital improvements, including its purchase of plant equipment necessary to increase operating efficiency. Furthermore, Bessemer Water continued its' efforts to undertake minor and some major infrastructure improvements in Bessemer, Ross Bridge, Alabaster, Midfield, Hueytown, and other service areas. The projects, as approved, are closely aligned with the efficiency and safety of our area's infrastructure. Bessemer Water has included in its 2021 budget, scheduled tank improvements per its tank repair/maintenance plan. Other projected 2021 plans consist of upgrades identified by City engineers, as necessary to provide for additional growth in the system, as well as increase the reliability and the level of service to the existing City customers. The 2021 projects will include completion of (a) a new water tank on 15th Street, (b) pumping capacity upgrades to the Maxwell and Eastern Valley booster pump stations, and (c) piping upgrades for the Maxwell and Eastern booster pump stations.

Water Revenue Warrants Series 2017 were issued on December 28, 2017, for \$27,455,000. The Series 2017 Warrants were issued to: a) refund all the outstanding Series 2008 Water Revenue Warrants, b) finance the cost of improvements, and c) pay the cost of issuing the Series 2017 Warrants.

Request for Information

This financial report is designed to give a general overview of the City's finances. Questions concerning any of the information in this report may be sent to the City's Finance Director, Kela Pryor, City of Bessemer, 1700 Third Avenue North, Bessemer, Alabama 35020.

THE CITY OF BESSEMER, ALABAMA RECONCILIATION OF THE BALANCE SHEET OF GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION SEPTEMBER 30, 2020

Total fund balances-governmental funds

\$ 24,081,324

Capital assets used in the governmental activities are not financial resources and, therefore, are not reported in the governmental funds:

Land	1,325,177
Property held for resale	256,552
Construction in progress	2,200,805
Buildings and capital facilities	31,877,742
Furnitue and fixtures	22,317,478
Infratructure	38,938,466
Accumulated depreciation	(31,864,612)
12.27	

Total capital assets 65,051,608

Long-term liabilities, including warrants payable, and accrued interest are not due and payable in the current period and therefore are not reported in the governmental funds, Balances at September 30, 2019 were:

Warrants payable	57,835,000
Unamortized premium	12,151
Unamortized discount	(375,049)
Deferred charge on refunding of debt	(1,475,144)
Deferred charge on acquistion	(3,882,334)
Accrued Interest	361,042
Closure and postclosure costs	266,845
Net pension obligation	52,322,148
Deferred outflow related to pension liability	(8,626,575)
Deferred inflow related to pension liability	43,735
OPEB liability	32,386,984
Deferred outflow related to OPEB liability	(6,922,055)
Deferred inflow related toOPEB liability	5,590,370
Compensated absences	7,228,976
Capital lease payable	129,110
Total long-term liabilities

THE CITY OF BESSEMER, ALABAMA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE GOVERNMENTAL FUNDS TO THE THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2020

Net change in fund balances-total governmental funds	\$	2,212,833
Capital outlay, reported as expenditures in governmental funds, is		
shown as capital assets in the Statement of Net Position.		4,564,665
Depreciation expense on governmental capital assets included in the		
governmental activities in the Statement of Activities.		(3,163,982)
Repayment of long-term debt is reported as an expenditure in		
governmental funds, but a reduction of long-term liabilities in the		
Statement of Net Position:		
Warrants payable 2,630	0,000	
Capital leases payable 125	5,241	
Total repayments		2,755,241

Debt discounts are reported in governmental funds as expenditures. However, these items are deferred on the Statement of Net Position and are amortized over the life of the debt. Debt refunding losses are deferred on the Statement of Net Position and amortized over the life of the new debt or refunded debt depending upon which has the shortest muturity date.

Amortization of bond discount	(44,941)
Amortization of bond premium	7,298
Amortization of deferred charge on debt refunding	(212,261)
Amortization of deferred charge on acquisition of District and CDA	(694,605)

The sale and disposal of capital assets.

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:

Accrued interest expense	(361,042)
Change in net pension obligation	(6,275,892)
Change in net OPEB obligation	(2,955,445)
Change in post closure costs	·-
Compensated absences	(517,085)
Change in net position governmental activities	\$ (4,685,216)

Notes to the Financial Statements September 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Bessemer, Alabama (the "City"), is a municipal corporation that was incorporated in 1888. The City operates under the Mayor-Council form of government as provided by Act No. 89-750 Regular Session of the Alabama Legislature and is comprised of a Mayor who is elected at large and a seven-member council that is elected by district.

The financial statements of the City have been presented in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the City's accounting policies are described

below. Reporting Entity

As defined by generally accepted accounting principles established by the Governmental Accounting Standards Board (GASB), the financial reporting entity consists of the primary government, as well as component units, which are legally separate organizations for which elected officials of the primary government are financially accountable. Financial accountability is defined as:

- (1) Appointment of a voting majority of the component unit's board by the primary government and either:
 - a) the ability of the primary government to impose its will on the organization, or
 - b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government; or
- (2) Fiscal dependency on the primary government.

Blended Component Units – Blended component units are separate legal entities that meet the component unit criteria described above and whose governing body is the same or substantially the same as the City's or the component unit provides services entirely to the City. These component units' funds are blended into those of the City's by appropriate activity type to compose the primary government presentation.

Discretely Presented Component Units – Discretely presented component units are separate legal entities that meet the component unit criteria described above, but do not meet the criteria for blending.

Included in the primary government are the City of Bessemer Electric Service Department and the City of Bessemer Water Service Department (the "Utilities"). The management of the Utilities is selected by the Mayor. Separate financial statements for each of the Utilities are issued presenting the financial position, changes in financial position, and cash flows for each of the Utilities for the annual periods ending on their respective fiscal year-ends. The financial statements of the City include the fiscal year ended June 30, 2020, for the Electric Service Department and September 30, 2020, for the Water Service Department.

Notes to the Financial Statements September 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Reporting Entity - Continued

The City includes the Bessemer Public Library (the "Library") as a blended component unit. Although the Library possesses many characteristics of a legally separate government, all capital assets and related debt for the library are included in the City's accounts. In addition, appropriations from the City and a 3.5 mill City ad valorem tax collected make up approximately 91 percent of the Library's cash receipts. A board of five trustees governs the Library. The Bessemer City Council appoints the trustees for four-year terms. The terms should overlap so that at least one trustee is appointed or re-appointed each year. Complete financial statements as of September 30, 2020, for the Library may be obtained at the following administrative office:

Bessemer Public Library 400 19th Street North Bessemer, Alabama 35020

The City's discretely presented component units are presented in total in a separate column in the government-wide financial statements to emphasize that they are legally separate from the City. The City's discretely presented component units consist of the following:

- Governmental Utility Services Corporation (GUSC) the GUSC is a three-member board appointed by the City and is a public corporation under the provisions of the code of Alabama. The GUSC's fiscal year ends on September 30.
- Bessemer Airport Authority (BAA) the BAA is a four-member board appointed by the City
 and is a public corporation under the provisions of the code of Alabama. The BAA's fiscal
 year ends on September 30.

Complete financial statements or other financial information as of September 30, 2020, for the discretely presented component units may be obtained at the following administrative offices:

Governmental Utility Services Corporation Authority 1700 Third Avenue North

Bessemer Airport 900 Mitchell Field Rd SE

Bessemer, Alabama 35020

Bessemer, Alabama 35022

Related Organizations

The City is also responsible for appointing a voting majority of the boards of other organizations but the City's financial accountability for these organizations does not extend beyond making the appointments. The City appointed a voting majority of the Industrial Development Board, the Public Building Authority, and the Bessemer Housing Authority. These organizations are related organizations that have not been included in the reporting entity.

Notes to the Financial Statements September 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Government-Wide and Fund Financial Statements

The government-wide financial statements of the City consist of the statement of net position and the statement of activities for all of the non-fiduciary activities of the City (primary government) and its four component units. For the most part, the effect of inter-fund activity has been removed from these statements. The statements report separately the governmental activities and business-type activities. Governmental activities are normally supported by taxes and intergovernmental revenues, whereas business-type activities rely to a significant extent on fees and charges for support. The City as the primary government is reported separately from its four legally separate component units.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Amounts reported as program revenues include 1) charges to customers for services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes and other items not properly included among program revenues.

Included in this report are separate financial statements for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual government funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, licenses, sales taxes, use taxes, occupational taxes, and interest associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Notes to the Financial Statements September 30, 2020

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Continued

Subsequent events were evaluated through September 17, 2021, the date the financial statements were available to be issued.

Fund and Accounting Entity

A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds are maintained which is consistent with legal and managerial requirements.

The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Debt Service Fund is treated as a major fund and accounts for and reports financial resources that are restricted, committed, or assigned to expenditures for the payment of interest, principal, and related costs on the long-term general and limited obligation debt.

The City reports the following major proprietary funds:

The Bessemer Electric Service accounts for the operations of the Bessemer Electric Service Department.

The Bessemer Water Service accounts for the operations of the Bessemer Water Service Department.

The Bessemer Civic Center accounts for the operations of the Bessemer Civic Center.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, are generally followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to the same limitation. The City elected to apply Financial Accounting Standards Board (FASB) pronouncements and interpretations issued on or before November 30, 1989, unless they conflict or contradict GASB pronouncements.

As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the Utilities and the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Notes to the Financial Statements September 30, 2020

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operation. The principal operating revenues of the enterprise funds are charges to customers for services. Operating expenses for enterprise funds include the cost of services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

For purposes of the Statement of Cash Flows for all proprietary funds, the City considered all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Notes to the Financial Statements September 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Fund and Accounting Entity - Continued

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the City Council or the official or other body has provided otherwise in its commitment or assignment actions.

Reclassifications

Certain prior year's data presented in the financial statements have been reclassified to conform to the current year presentation. These reclassifications had no effect on total assets, change in net position, or cash flows.

Deposits and Investments

Cash includes amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the City. State statutes authorize the City to invest in U.S. government obligations, U.S. government agency obligations, U.S. corporate stock, U.S. debt, State of Alabama obligations, county obligations, and other municipal obligations.

Investments for the City, as well as for its component units, are reported at fair value, market value, or best available estimates. Short-term investments are reported at cost, which approximates market value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. All investments have established markets to determine their fair value.

Taxes Receivable

All property taxes levied by the State, County, and City in Jefferson County, Alabama, are assessed by the Jefferson County Tax Assessor and collected by their tax collectors. The property tax calendars specify the following actions and dates:

Levy (assessment date)

Lien Date

September 30

October 1

Due Date

October 1

Collection Dates October to December 31

Delinquent Date January 1

160cm (40 do 10 d

Tax collections are remitted to the City on a monthly basis. All amounts remitted to the City within the bill paying period are included in revenue. Taxes collected within the fiscal year but remitted to the City after year-end are accrued in both the government-wide and fund financial statements.

Notes to the Financial Statements September 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Short-Term Inter-Fund Receivables/Payables

During the course of normal operations, the City has numerous transactions between funds to provide services, construct assets, service debt, etc. Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due from other funds" or "due to other funds" (i.e., the current portion of inter-fund loans) or "advances from other funds" or "advances to other funds" (i.e., the noncurrent portion of inter-fund loans). These amounts have been eliminated in the government-wide financial statements except for those amounts outstanding at year-end between the general fund and the proprietary funds.

Inventory

Inventory is valued using the first-in, first-out method. Inventory consists of expendable supplies held in the General Fund for consumption. The cost is recorded as an expenditure at the time individual inventory items are used (consumption method). Materials and supplies inventories in the business-type activities are stated at the lower of average cost or market.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets other than infrastructure are defined by the City as the items with an estimated useful life of three years or more and an individual cost in excess of \$5,000. Capital assets are recorded at cost where historical cost is available or at estimated historical cost if actual cost was not available. Donated capital assets are recorded at their estimated fair value at the time of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Upon sale or retirement of property, buildings, furniture, and other equipment, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the results of operations.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Building and Capital Facilities	50
Furniture and Other Equipment	3 - 20
Infrastructure	25 - 50

The City recognizes the intrinsic value of historical works and collections. As such, the City has adopted a policy that these items will not be capitalized and subject to depreciation. Should the sale of any of the items occur, the City is committed to using the funds generated from the sale to purchase similar other collectibles.

Notes to the Financial Statements September 30, 2020

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Compensated Absences

Compensated absences have been accounted for in accordance with GASB Statement No. 16, Accounting for Compensated Absences.

Vacation leave is earned on graduated rates based on the employee's length of service (one day per month of service, initially) and up to forty days of unused leave may be carried over to the following year. After one year of service, an employee is eligible to receive up to 40 days of accrued vacation leave upon separation of service if they leave the City in good standing. Vacation pay is accrued when incurred in the government-wide financial statements and as of September 30, 2020, totaled \$703,325.

Sick leave is earned at a rate of one day per month of service. After five years of service, an employee is eligible to receive up to 75 days of accrued sick leave (100% of the first 60 days of accrued sick leave and 50% of the next 30 days of accrued sick leave) upon separation of service if they leave the City in good standing. Sick leave is accrued when incurred in the government-wide financial statements for those employees that meet the longevity requirements and is limited to the maximum days eligible for payment upon separation of service. Sick leave is accrued when incurred in the government-wide financial statements and as of September 30, 2020, totaled \$1,109,846.

It is necessary for various departments of the City to operate on a 24-hour basis regardless of weather or holidays. It has been the City's policy to allow those employees that work in those departments to accrue hours of holiday leave time and miscellaneous overtime leave with no cap. At various times, the City has approved lump sum payments of this accrued compensation, but this is on a discretionary basis. Upon separation of service from the City, employees are entitled to receive payment for any accrued compensation related to holiday leave or miscellaneous overtime leave. Holiday leave time and miscellaneous overtime leave is accrued when incurred in the government-wide financial statements and as of September 30, 2020, totaled \$359,185.

The recordkeeping for compensated absences is handled by each department and the value of compensated absences is based on the reported hours accrued at the current hourly rate for each employee. It is reasonably possible that the actual amount paid for compensated absences will be different than the estimated value of accrued compensated absences.

Long-Term Obligations

In the government-wide financial statements and for the proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statements of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium and discount. In accordance with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, debt issuance costs are reported as general government expenditures.

In the fund financial statements, the bond discounts and issuance costs have been recognized in the current period. The face amount of the new debt issued along with related premiums and discounts are reported as other financing sources and uses. In accordance with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, debt issuance costs are reported as general government expenditures.

Notes to the Financial Statements September 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Equity Classification

In the government-wide statements, equity is classified as net position and displayed in three components:

(a) Invested in capital assets – consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets; (b) Restricted net position – consists of net position with constraints placed on its use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or

(2) law through constitutional or enabling legislation; (c) Unrestricted net position – consists of all other net position that does not meet the definition of "restricted" or "invested in capital assets."

The City follows the provisions of GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. This statement enhances the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. The following classifications describe the relative strength of the spending constraints:

Nonspendable fund balance – amounts that are not in spendable form (such as inventory) or are required to be maintained intact.

Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed fund balance – amounts constrained to specific purposes by the City itself by ordinance or resolution enacted by the City Council. To be reported as committed, amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same type of action (ordinance or resolution) that was employed when the funds were initially committed.

Assigned fund balance – amounts the City intends to use for a specific purpose that are neither restricted nor committed. Intent can be expressed by the City Council or by an official or body to which the City Council delegates the authority. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund.

Unassigned fund balance – amounts that are available for any purpose. The General Fund is the only fund that will report a positive unassigned fund balance.

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available, it is the policy of the City to generally consider restricted amounts to have been reduced first. When an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used, it is the policy of the City that committed amounts would be reduced first, followed by assigned amounts, and then unassigned amounts. In both instances, when a proposed expenditure is made with specific balances identified as the source of the funding, that specific fund balance will be used.

Notes to the Financial Statements September 30, 2020

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Budgetary Comparisons

Under GASBS No. 34, budgetary comparison information is required to be presented for the General Fund and each major special revenue fund with a legally adopted budget. The City adopted a general fund budget. Budget comparison information for the general fund is included in the City's basic financial statements.

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgets and Budgetary Accounting

The City adopts a General Fund budget annually. Other funds are budgeted as needed.

- 1. During the month of July:
 - Department heads submit budget requests, both operating and capital to the Mayor.
 - b. Boards and authorities make written applications to the Mayor for appropriations.
 - c. Outside agencies make written requests for appropriations and are also recognized at an open Council meeting to publicly make their petition.
 - Public meetings are called concerning budgeting for restricted funds such as Community Development.
- The Finance Director/Treasurer prepares an estimated revenue budget and an estimated expenditures budget based on prior year's operations, budget year requests, and general business outlook.
- 3. The Mayor, Council, and Finance Director/Treasurer meet with department heads, representatives of Boards and Authorities, and any interest group that is concerned with such budget meetings. A General Fund Budget is completed that meets requirements of State Law, in that budget expenditures cannot exceed available revenues.
- 4. Prior to the first Council meeting in October, the approved budget is presented in "Ordinance" form at a regular Council meeting. This budget is read and explained in detail and is open for discussion. Upon its adoption, the budget becomes law and cannot be changed by an ordinance amending such budget.
- 5. Legally adopted annual budgets are not prepared on Special Revenue Funds; consequently, there are no statements of revenue and expenditures, budget and actual, for these funds. However, budgets for them are adopted on an individual project basis. Budgets are not prepared for Debt Service Funds because effective budgetary control is alternatively achieved through general obligation indenture provisions.

Notes to the Financial Statements September 30, 2020

NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY- CONTINUED

Budgets and Budgetary Accounting

6. The General Fund operating budget is controlled at the level of authority of each departmental function. Line item adjustments may be made within each departmental function, but expenditures may not exceed budget in any area of responsibility without approval of the Mayor and this only with an anticipated increase in revenues or through a reduction in other costs. All appropriations approved for the current year's operating budget lapse at year-end.

The budget is integrated into the accounting system. The budgetary data, as presented in the financial statements for all funds with annual budgets, compares the expenditures with the amended budgets. All budgets are presented on the modified accrual basis of accounting. Accordingly, the Budgetary Comparison Schedule for the General Fund presents actual expenditures in accordance with the accounting principles generally accepted in the United States of America on a basis consistent with the legally adopted budgets as amended. Unexpended appropriations on annual budgets lapse at the end of each fiscal year.

NOTE 3 – DEPOSITS IN FINANCIAL INSTITUTIONS

Demand Deposits and Custodial Credit Risk

The City's demand deposits, certificates of deposit, and money market investments at year-end were entirely covered by federal depository insurance or by the Security for Alabama Funds Enhancement Program (SAFE Program). The SAFE Program was established by the Alabama Legislature and is governed by the provisions contained in the Code of Alabama 1975, Sections 41-14A-1 through 41-14A-Under the SAFE Program, all public funds are protected through a collateral pool administered by the Alabama State Treasurer's Office. Under this program, financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that financial institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation (FDIC). If the securities pledged fail to produce adequate funds, every institution participating in the pool would share the liability for the remaining balance.

Trustee Held Funds

The City maintains trustee accounts required by the bond indentures which hold cash and are invested primarily in U.S. government obligations, U.S. agencies, and instrumentalities.

Interest Rate Risk

In accordance with its investment policy, the City manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio outside of trustee held funds to less than ten months.

Notes to the Financial Statements September 30, 2020

Concentration of Credit Risk

The City's investment policy does not allow investments outside of trustee held funds for investment in any one issuer that is in excess of five percent of the total investments. Investments in U.S. Treasury Reserves and other U.S. Treasury Obligations make up 100 percent of the City's investments.

NOTE 3 - DEPOSITS IN FINANCIAL INSTITUTIONS- CONTINUED

Investments (All within Trustee Held Funds)

Governmental Activities

Federated U.S. Treasury Reserves	AAAm, AAA	1-90 Days	\$ 907,077

Business-Type Activities			
Federated U.S. Treasury Reserves	AA+, AAA	Various	\$ 8,434,526
Total		5.	\$ 8,434,526

Fair Value Measurement

Deposits and investments are reported at fair value which is the amount at which financial instruments could be exchanged in a current transaction between willing parties. The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. All of the City's investments are level 1 inputs.

Deposits and investments have been reported as either cash and cash equivalents, certificates of deposit or as investments as follows in the financial statements:

Reported in Governmental Funds	\$	16,886,107	
Reported in Proprietary Funds	F	24,421,413	
Total	\$	41,307,520

Notes to the Financial Statements September 30, 2020

NOTE 4 – ACCOUNTS RECEIVABLE

Governmental Activities

Accounts receivable consists of varioustaxes and grants receivable. All amounts are considered collectable by the City and as such no allowance for doubtful accounts has been recorded.

Business-type Activities

Bessemer Electric Service bills and collects from customers for services provided by the Electric Service and Bessemer Water Service. At June 30, 2020, the Electric Service customer receivables totaled approximately \$14,939,600 and the allowance for doubtful accounts was \$5,595,226. At September 30, 2020, the Water Service customer receivables totaled approximately \$3,071,613 and the allowance for doubtful accounts was \$-0-.

Notes to the Financial Statements September 30, 2020

NOTE 5 - CAPITAL ASSETS

Capital assets activity for the year ended September 30, 2020, was as follows:

⁽³⁾ Short-term balances related to Proprietary Funds for cost reimbursements or other payments due

Notes to the Financial Statements September 30, 2020

NOTE 6 - INTER-FUND RECEIVABLES, PAYABLES, AND TRANSFERS - CONTINUED

During the course of normal operations, the City incurs numerous transactions between funds to provide services, construct assets, service debt, etc. These transactions are generally reported as inter-fund transfers. No expectation of repayment between funds is expected related to these inter-fund transfers. The composition of inter-fund transfers for the year ended September 30, 2020, is as follows:

	Trans	sfers In	Trans	fers Out	
General Fund:					
Operating transfer	\$	1,641,565	\$	1,231,039	(2)
Major Funds:					
Debt Service Fund		2,522,134	36	2	(1)

	_\$	4,323,699	\$	4,323,699	

⁽¹⁾ Transfer to cover debt service requirements

NOTE 7 - CAPITAL LEASES

Governmental Activities:

The City has entered into a lease agreement as a lessee for financing the acquisition of two fire engines. The lease agreement qualifies as a capital lease for accounting purposes and therefore, has been recorded at the present value of the future minimum lease payments as of the inception date for amounts that meet the City's capitalization threshold.

The future minimum lease obligations and the net present value of the minimum lease payments as of September 30, 2020, are as follows:

Year Ending	Governmental Activities					
September 30	Prin	cipal	Inter	est	Tota	1
2021	_\$	129,110	\$	3,990	_\$_	133,100
Total Minimum Lease Payments	\$	129,110	\$	3,990		133,100
Less: Amount Representing Interest					<	3,990
Present Value of Minimum Lease P	ayments				\$	129,110
		004	~			

⁽²⁾ Transfer to subsidize fund operations

Notes to the Financial Statements September 30, 2020

NOTE 7 - CAPITAL LEASES - CONTINUED

Governmental Activities - Continued:

Assets acquired through capital leases are as follows:

	Governmental Activities			
Machinery and Equipment	\$	946,448		
Less Accumulated depreciation		607,303		
Net Total	\$	339,145		

Business-Type Activities:

The Electric Service Department leases equipment under a noncancelable lease expiring October 2, 2023, which meets the criteria for capitalization. The capital lease is financed from general fund resources.

The estimated value of the leased machinery and equipment at the inception of the lease was \$276,334. The related present value of the remaining obligations under the capital lease which totaled \$140,542 at June 30, 2020, is included in the capital assets and long-term liabilities, accordingly.

The future minimum lease obligations and the net present value of the minimum lease payments as of June 30, 2020, are as follows:

Vear	Ending	
I Cai	Liluing	i

June 30	Prin	cipal	Inter	est	Tota	l
2020	\$	45,115	\$	5,329	\$	50,444
2021		46,826		3,618		50,444
2022		48,601		1,843		50,444
Total Minimum Lease Payments	\$	140,542	\$	10,790		151,332
Less: Amount Representing Interest						(10,790)
Present Value of Minimum Lease Pay	ments				_\$	140,542

Assets acquired through capital leases are as follows:

Utility Truck	\$ 276,334
Less Accumulated depreciation	(165,801)
Net Total	\$ 110,533

Notes to the Financial Statements September 30, 2020

NOTE 8 – OPERATING LEASES

Governmental Activities:

The City leases copier equipment and golf carts under operating leases expiring at various times ranging from December 2020, through June 2022. Upon expiration, the leases may be renewed monthly.

The future minimum rental payments required by operating leases that have initial lease terms in excess of one year as of September 30, 2020, are as follows:

Year Ending		rernmental vities
September 30		
2021		47,070
2022		31,000
	Total	\$ 78,070

Rental expenditures for the year ended September 30, 2020, totaled \$78,379.

NOTE 21 – CURRENT AND ADVANCED REFUNDINGS

Bonds are refunded to retire all or a portion of an outstanding bond issue. Most typically, refundings are done to refinance at a lower interest rate to reduce overall debt service. Certain issues of bonds may be refunded prior to the call date, known as an advance refunding.

Future principal and interest payments on refunded bonds have been provided through advance refunding bond issues whereby refunding bonds are issued and the net proceeds, plus any additional resources that may be required, are used to purchase securities issued and guaranteed by the United States government. The City then deposits these securities in an irrevocable trust under an escrow agreement which states that all proceeds from the trust will be used to fund the principal and interest payments of the previously issued debt being refunded. The trust deposits have been computed so that the securities in the trust, along with future cash flows generated by the securities, will be sufficient to service the previously issued bonds.

Notes to the Financial Statements September 30, 2020

NOTE 21 - CURRENT AND ADVANCED REFUNDINGS- Continued:

Governmental Activities

During the year ended September 30, 2014, the City issued bonds to refinance the majority of its outstanding bond issues through current and advanced refundings. Below is a summary of the City's refunding activity:

General Obligation Warrants Series 2013-A were issued on November 6, 2013, for \$5,960,000 to refund the General Obligation Warrants Series 1999 principal amount of \$6,225,000. The difference between the cash flows required to service the old debt and that required to service the new debt and complete the refunding was \$1,147,009. The economic gain on refunding was \$980,449.

Limited Obligation Gasoline Tax Warrants Series 2013-B were issued on December 19, 2013, for \$2,225,000 to refund the Limited Obligation Gasoline Tax Warrants Series 2002 principal amount of \$2,335,000. The difference between the cash flows required to service the old debt and that required to service the new debt and complete the refunding was \$629,548. The economic gain on refunding was \$341,000.

General Obligation Warrants Academy Drive and TIF (Tax Increment Financing) District Series 2013-C were issued on December 30, 2013, for \$13,795,000 to refund the Tax Increment Financing District 1 Revenue Warrants Series 2004 principal amount of \$2,705,000 and the District's Limited Obligation Revenue Bonds Series 2003 principal amount of \$11,560,000. The difference between the cash flows required to service the old debt and that required to service the new debt and complete the refunding was \$3,339,079. The economic gain on refunding was \$2,418,595.

General Obligation Warrants Series 2014-D were issued on February 25, 2014, for \$20,825,000. The City used the net proceeds to purchase U.S. government securities that were deposited in an irrevocable trust to provide for all future debt service on the refunded portion of the Limited Obligation Warrants Series 2007. As a result, \$17,180,000 of the Series 2007 Warrants are considered defeased and the City has removed the liability from its accounts. The bonds were fully redeemed on February 1, 2017. The difference between the cash flows required to service the old debt and that required to service the new debt and complete the refunding was \$1,987,307. The economic gain on refunding was \$1,364,416.

General Obligation Warrants Series 2014-E were issued on July 24, 2014, for \$7,070,000. The City used the net proceeds to purchase U.S. government securities that were deposited in an irrevocable trust to provide for all future debt service on the refunded portion of the General Obligation Warrants Series 2005. As a result, \$6,520,000 of the Series 2005 Warrants are considered defeased and the City has removed the liability from its accounts. The bonds were fully redeemed at 101% on February 1, 2015. The difference between the cash flows required to service the old debt and that required to service the new debt and complete the refunding was \$866,035. The economic gain on refunding was \$618,041.

Notes to the Financial Statements September 30, 2020

NOTE 21 – CURRENT AND ADVANCED REFUNDINGS – CONTINUED

Governmental Activities - Continued

Business-Type Activities

Electric Revenue Refunding Warrants Series 2011 were issued on September 1, 2011, for \$11,985,000. The Utilities used the net proceeds to purchase U.S. government securities that were deposited in an irrevocable trust to provide for all future debt service on the refunded portion of the Series 1998, 1999, and 2003 Electric Revenue warrants. As a result, \$820,000 of the Series 1998, \$2,830,000 of Series 1999, and \$6,860,000 of Series 2003 Electric Revenue Warrants are considered defeased and the Utilities has removed the liability from its accounts. The bonds were fully redeemed on December 1, 2011. The difference between the cash flows required to service the old debt and that required to service the new debt and complete the refunding was \$17,233. The economic gain on refunding was \$1,964,440.

Water Revenue Warrants Series 2017 were issued on December 28, 2017, for \$27,455,000. The Series 2017 Warrants were issued to: a) refund all the outstanding Series 2008 Water Revenue Warrants, b) finance the cost of improvements, and c) pay the cost of issuing the Series 2017 Warrants. As a result, \$21,000,000 of the Series 2008 Warrants are considered defeased and the Water Service has removed the liability from its accounts. The Series 2008 Water Revenue Warrants were fully redeemed on January 22, 2019. The difference between the cash flows required to service the old debt and that required to service the new debt and complete the refunding was \$578,659. The economic loss on refunding was

\$2,784,253.

Deferred and amortized amounts on the City's bond refundings (which are reported as deferred inflows or deferred outflows of resources) at September 30, 2020, are summarized below. Deferred amounts on refundings are amortized as a component of interest expense and the deferred outflow on the acquisition is amortized as a special item.

Notes to the Financial Statements September 30, 2020

NOTE 21 – CURRENT AND ADVANCED REFUNDINGS – CONTINUED

Business-Type Activities- Continued

GASB Statement No. 69, Government Combinations and Disposals of Government Operations, was implemented during the year ended September 30, 2014, due to the City's acquisition of the District and the CDA. GASBS No. 69 establishes accounting and financial reporting standards related to disposals of government operations and government combinations referred to as mergers, acquisitions, and transfers of operations. For government acquisitions in which there is an exchange of significant consideration, GASBS No. 69 generally requires assets acquired and liabilities assumed to be measured based on their acquisition values. The City was generally obligated on the District's and the CDA's outstanding liabilities. The objective of the acquisition was to reduce the overall debt service requirements of the City by refunding the District's Series 2003 Bonds and satisfying the District's and the CDA's liabilities to Exit 108, LLC. The acquisition was finalized on December 30, 2013, with no contingent consideration arrangements. The total consideration provided was \$11,455,805 for the District and \$436,000 for the CDA and no net position was acquired resulting in \$11,891,805 in excess consideration provided by the City over the net position acquired. Amortization for the year ended September 30, 2020, was \$694,605 leaving an unamortized deferred outflow of \$3,882,334.

Notes to the Financial Statements September 30, 2020

NOTE 10 - GENERAL AND LIMITED OBLIGATION WARRANTS PAYABLE

The City issues general obligation warrants to provide funds for the acquisition and/or construction of capital assets. General obligation warrants are direct obligations and the City pledges its full faith and credit. Under state statute, general obligation warrants can be issued without an election and must be issued for a period of maturity of not longer than thirty years. Limited obligation warrants and revenue warrants are obligations of the City that are paid from specified revenues only. These revenues include incremental ad valorem taxes, specific millage ad valorem taxes, sales and use tax revenues, occupational tax revenues, and developer guarantees.

General obligation warrants, limited obligation warrants, and revenue warrants currently outstanding are as follows:

Primary Government

Governmental Activities:

Type and Purpose	2020
Limited obligation Library Warrants Series 2012	
Due in varying amounts beginning February 1, 2015, until February 1, 2030	
with interest payable semi-annual on February 1 and August 1 at rates	
varying from 2.00% to 3.125%. Payable solely from and secured by	
the pledge of 3.5 mills on each \$1.00 of taxable property of the City.	\$ 2,860,000
General Obligation Warrants Series 2013-A	
Due in varying amounts beginning February 1, 2014, until February 1, 2043	
with interest payable semi-annual on February 1 and August 1 at rates	
varying from 3.00% to 4.75%. Payable solely from and secured by	
the pledge of 8.6 mills on each \$1.00 of taxable property of the City.	20,720,000
General Obligation Warrants Series 2013-B	
Due in varying amounts beginning December 1, 2014, until December 1, 2023	
with interest payable semi-annual on June 1 and December 1 at rates	
varying from 2.00% to 3.50%. Payable solely from and secured by	
the pledge of the City's share of the net proceeds of the	
supplemental excise tax levied by the State of Alabama.	960,000

Noncompliance and Cure of Continuing Disclosure Undertaking

In connection with its debt obligations, the City undertook to provide annual filings of certain financial information and operating data of the City to the Municipal Securities Rulemaking Board pursuant to the requirements of Section (b)(5) of Rule 15c2-12 (the "Rule"), as amended, adopted by the Securities and Exchange Commission (the "SEC") under the Securities Exchange Act of 1934, as amended. The filings are due 180 days after the close of the City's fiscal year-end. The City did not timely file such annual financial information and operating data for the current year-end. The City has filed the appropriate notices and will file the required annual filings with the Municipal Securities Rulemaking Board via its Electronic Municipal Market Access (EMMA) system upon release of the City's financial statements.

NOTE 11 - COMPONENT UNITS' REVENUE BONDS AND NOTES PAYABLE

GUSC:

On November 17, 2017, the GUSC issued Water Supply Revenue Bonds Series 2017, for \$48,710,000 to refund the Water Supply Revenue Bonds Series 2008 principal amount of \$51,630,000 and to provide \$3,200,000 for water plant improvements. The difference between the cash flows required to service the old debt and that required to service the new debt and complete the refunding was \$6,406,207. The economic gain on refunding was \$6,685,593.

Notes to the Financial Statements September 30, 2020

NOTE 14 – RISK MANAGEMENT

The City of Bessemer is exposed to various risk of loss related to torts, theft, errors and omissions, job related illness and injury, and natural disasters. Risk management is the process of managing the activities of the City to minimize the adverse effects of those losses and to also obtain resources to provide for and restore economic damages resulting from losses.

The City was self-insured through June of 2015. As of July 1, 2015, the City became part of a group self-insured fund, the Municipal Workers Compensation Fund, which is administered by Millennium Risk Managers. This insurance policy limits the City's exposure to \$500,000 per incident.

The City pays undisputed medical claims related to workers' compensation up to the deductible of

\$500,000. Liabilities for incurred and unpaid claims are included in the government-wide statements. Expenditures are recognized in the fund financial statements as they are paid.

NOTE 15 - COMMITMENTS, CLAIMS, AND CONTINGENCIES

Various lawsuits are pending against the City. In addition, numerous claims have been filed which have not yet resulted in lawsuits. In the opinion of the City Attorney, the potential adverse impact of the majority of these claims, individually or in the aggregate, would not be material to the financial statements of the City.

The City has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agencies for expenditures disallowed under the terms of the grants. City management believes such disallowances, if any, would be immaterial.

The City has entered into agreements in recent years with other entities for economic development purposes. Pursuant to these agreements, the City will make payments over stated periods of years for the development of various projects and facilities that the City believes will promote the tax and revenue base of the City and increase employment opportunities in the City. The City generally expects that these agreements will result in greater tax revenues for the City than the City is obligated to pay under such agreements, and in certain cases, the City's obligations are capped at an amount not to exceed the tax revenues it actually receives. These obligations are limited obligations of the City payable generally as rebates of taxes received by the City from private entities. Payables related to these obligations for amounts collected subject to rebate but not yet remitted have been reflected in the liabilities and expenditures of the City.

On October 1, 2013, the City and the Bessemer Airport Authority issued the Series 2013, Revenue Bond of Bessemer Airport Authority to Regions Bank for the principal amount of \$718,779. The bond is a general obligation of the City to be paid \$60,000 annually on or before December 1, 2013, and on or before October 1st of each year thereafter as long as the bond shall be outstanding. The Authority refinanced the bond with a note payable in March 2017. The Authority refinanced again in February 2020. The City has a general obligation to service \$60,000 of this debt annually. As of September 30, 2020, the outstanding balance of the notes payable was \$1,032,152.

Notes to the Financial Statements September 30, 2020

NOTE 16 - LANDFILL CLOSURE AND POSTCLOSURE CARE COST

State and federal laws and regulations require the City of Bessemer (the "City) to place a final cover on its landfill sites when it stops accepting waste and to perform certain maintenance and monitoring functions at the sites for thirty years after closure. Although closure and postclosure care costs will be paid only near or after the date that the landfill stops accepting waste, the City reports a portion of these closure and postclosure care costs as a long-term liability. The liability is increased or decreased each period based on landfill capacity used as of each balance sheet date.

The \$266,845 reported as landfill postclosure care liability at September 30, 2020, represents the cumulative amount reported to date based on the use of 100 percent of the estimated capacity of one landfill site and 34 percent of the estimated capacity of a second landfill site. The City will recognize the remaining estimated cost of closure and postclosure care of \$236,520 as the remaining capacity is filled. These amounts are based on what it would cost to perform all postclosure care in 2020. Actual cost may be higher due to inflation, changes in technology, or changes in regulations. Officials estimate the remaining life of the open landfill site to be approximately 19 years.

NOTE 17 - RETIREMENT PLAN

General Information about the Pension Plan

Plan Description. The Employees' Retirement System of Alabama, an agency multiple-employer plan, was established October 1, 1945, under the provisions of Act 515 of the Legislature of 1945 for the purpose of providing retirement allowances and other specified benefits for state employees, State Police, and on an elective basis, to all cities, counties, towns, and quasi-public organizations (this includes GUSC). The responsibility for the general administration and operation of ERS is vested in its Board of Control. The ERS Board of Control consists of 13 trustees. The Plan is administered by the Retirement Systems of Alabama (RSA). Title 36-Chapter 27 of the Code of Alabama grants the authority to establish and amend the benefit terms to the ERS Board of Control. The Plan issues a publicly available financial report that can be obtained at www.rsa-al.gov.

The ERS Board of Control consists of 13 trustees as follows:

- 1) The Governor, ex officio.
- 2) The State Treasurer, ex officio.
- 3) The State Personnel Director, ex officio.
- 4) The State Director of Finance, ex officio.

Three vested members of ERS appointed by the Governor for a term of four years, no two of whom are from the same department of state government nor from any department of which an ex officio trustee is the head.

Notes to the Financial Statements September 30, 2020

NOTE 17 - RETIREMENT PLAN - CONTINUED

General Information about the Pension Plan (Continued)

- 5) Six members of ERS who are elected by members from the same category of ERS for a term of four years as follows:
 - a. Two retired members with one from the ranks of retired state employees and one from the ranks of retired employees of a city, county, or a public agency each of whom is an active beneficiary of ERS.
 - b.Two vested active state employees.
 - c.Two vested active employees of an employer participating in ERS pursuant to § 36-27-6.

Benefits Provided. State law establishes retirement benefits as well as death and disability benefits and any ad hoc increase in postretirement benefits for the ERS. Benefits for Tier 1 ERS members vest after 10 years of creditable service. State employees who retire after age 60 (52 for State Police) with 10 years or more of creditable service or with 25 years of service (regardless of age) are entitled to annual retirement benefit, payable monthly for life. Local employees who retire after age 60 with 10 years or more of creditable service or with 25 or 30 years of service (regardless of age), depending on the particular entity's election, are entitled to an annual retirement benefit, payable monthly for life. Service and disability retirement benefits are based on a guaranteed minimum or a formula method, with the member receiving payment under the method that yields the highest monthly benefit. Under the formula method, Tier 1 members of the ERS (except State Police) are allowed 2.0125% of their average final compensation (highest 3 of the last 10 years) for each year of service. State police are allowed 2.875% for each year of State Police service in computing the formula method.

Act 377 of the Legislature of 2012 established a new tier of benefits (Tier 2) for members hired on or after January 1, 2013. Tier 2 ERS members are eligible for retirement after age 62 (56 for State Police) with 10 years or more of creditable service and are entitled to an annual retirement benefit, payable monthly for life. Service and disability retirement benefits are based on a guaranteed minimum or a formula method, with the member receiving payment under the method that yields the highest monthly benefit. Under the formula method, Tier 2 members of the ERS (except State Police) are allowed 1.65% of their average final compensation (highest 5 of the last 10 years) for each year of service. State Police are allowed 2.375 % for each year of State Police service in computing the formula method.

Members are eligible for disability retirement if they have 10 years of credible service, are currently inservice, and determined by the RSA Medical Board to be permanently incapacitated from further performance of duty. Preretirement death benefits equal to the annual earnable compensation of the member as reported to the Plan for the preceding year ending September 30 are paid to the beneficiary.

Notes to the Financial Statements September 30, 2020

NOTE 17 - RETIREMENT PLAN - CONTINUED

General Information about the Pension Plan (Continued)

The ERS membership includes approximately 101,245 participants from approximately 907 local participating employers. As of September 30, 2020, membership consisted of:

Retirees and beneficiaries currently receiving benefits	28,672
Terminated employees entitled to but not yet receiving benefits	1,974
Terminated employees not entitled to a benefit	14,133
Active members	56,369
Post-DROP participants still in active service	97
Total	101,245

Contributions. Tier 1 covered members of the ERS (except State Police and certified law enforcement, correctional officers, and firefighters) contributed 5% of earnable compensation to the ERS as required by statute until September 30, 2011. From October 1, 2011, to September 30, 2012, Tier 1 covered members of the ERS (except State Police and certified law enforcement, correctional officers and firefighters) were required by statute to contribute 7.25% of earnable compensation. Effective October 1, 2012, Tier 1 covered members of the ERS (except State Police and certified law enforcement, correctional officers and firefighters) are required by statute to contribute 7.50% of earnable compensation. Tier 1 certified law enforcement, correctional officers, and firefighters of the ERS contributed 6% of earnable compensation as required by statute until September 30, 2011. From October 1, 2011, to September 30, 2012, certified law enforcement, correctional officers, and firefighters of the ERS were required by statute to contribute 8.25% of earnable compensation. Effective October 1, 2012, Tier 1 certified law enforcement, correctional officers, and firefighters of the ERS are required by statute to contribute 8.50% of earnable compensation. Tier 1 State Police of the ERS contribute 10% of earnable compensation. ERS local participating employers are not required by statute to increase contribution rates for their members.

Notes to the Financial Statements September 30, 2020

NOTE 17 - RETIREMENT PLAN - CONTINUED

General Information about the Pension Plan (Continued)

Tier 2 covered members of the ERS (except State Police and certified law enforcement, correctional officers and firefighters) contribute 6% of earnable compensation to the ERS as required by statute. Tier 2 certified law enforcement, correctional officers, and firefighters of the ERS are required by statute to contribute 7% of earnable compensation. Tier 2 State Police members of the ERS contribute 10% of earnable compensation. These contributions rates are the same for Tier 2 covered members of ERS local participating employers.

The ERS establishes rates based upon an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with additional amounts to finance any unfunded accrued liability, the pre-retirement death benefit and administrative expenses of the Plan. For the year ended September 30, 2020, the City's active employee contribution rate was 20.14% of covered payroll, and the City's average contribution rate to fund the normal and accrued liability costs was 19.66% of covered employee payroll.

The City's contractually required contribution rate for the year ended September 30, 2020, was 15.98% of pensionable pay for Tier 1 employees, and 12.82% of pensionable pay for Tier 2 employees. These required contribution rates are based upon the actuarial valuation dated September 30, 2019, a percent of annual pensionable payroll, and actuarially determined as an amount that, when combined with member contributions, is expected to finance the costs of benefits earned by members during the year, with an additional amount to finance any unfunded accrued liability. Total employer contributions to the pension plan from the City were \$5,279,968 for the year ended September 30, 2020.

Notes to the Financial Statements September 30, 2020

Notes to the Financial Statements September 30, 2020

NOTE 17 - RETIREMENT PLAN - CONTINUED

Net Pension Liability (Continued)

Actuarial assumptions. The total pension liability as of September 30, 2019, was determined based on the annual actuarial funding valuation report prepared as of September 30, 2016. The key actuarial assumptions are summarized below:

Inflation 2.75%

Salary increases 3.25% - 5.00%, including inflation

Investment rate of return* 7.75%

Mortality rates for ERS were based on the RP-2000 Blue Collar Mortality Table Projected with Scale BB to 2020 with an adjustment of 125% at all ages for males and 120% for females age 78 and older. The rates of mortality for the period after disability retirement are according to the sex distinct RP-2000 Disabled Retiree Mortality Table Projected with Scale BB to 2020 with an adjustment of 130% at all ages for females.

The actuarial assumptions used in the actuarial valuation as of September 30, 2017, were based on the results of an investigation of the economic and demographic experience for the ERS based upon participant data as of September 30, 2015. The Board of Control accepted and approved these changes in September 2016, which became effective at the beginning of fiscal year 2016.

^{*}Net of pension plan investment expense

Notes to the Financial Statements September 30, 2020

NOTE 17 - RETIREMENT PLAN - CONTINUED

Net Pension Liability (Continued)

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimates of geometric real rates of return for each major asset class are as follows:

Asset Class	Target Allocation	Long-Term Expected Rate of Return*
Fixed Income	17.0%	4.4%
US Large Stocks	32.0%	8.0%
US Mid Stocks	9.0%	10.0%
US Small Stocks	4.0%	11.0%
Int'l Developed Mkt Stocks	12.0%	9.5%
Int'l Emerging Mkt Stocks	3.0%	11.0%
Alternatives	10.0%	10.1%
Real Estate	10.0%	7.5%
Cash Equivalents	3.0%	1.5%
Total	100.0%	

^{*}Includes assumed rate of inflation of 2.50%.

Notes to the Financial Statements September 30, 2020

NOTE 17 - RETIREMENT PLAN - CONTINUED

Net Pension Liability (Continued)

Discount rate. The discount rate used to measure the total pension liability was the long-term rate of return, 7.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that the employer contributions will be made in accordance with the funding policy adopted by the ERS Board of Control. Based on those assumptions, components of the pension plan's fiduciary net position were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued RSA Comprehensive Annual Report for the fiscal year ended September 30, 2019. The supporting actuarial information is included in the GASB Statement No. 68 Report for the ERS prepared as of September 30, 2019. The auditor's report dated April 30, 2021, on the Schedule of Changes in Fiduciary Net Position by Employer and accompanying notes is also available. The additional financial and actuarial information is available at www.rsa-al.gov.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 2020, the City recognized pension expense of \$5,279,968. At September 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pension of the following sources:

	Asset	Liability	
	Deferred	Deferred	
	Outflows	Inflows	
	of Resources	of Resources	
Difference between expected and actual experience	\$ 2,462,784	\$ 53,238

Employer contributions subsequent to the Measurement Date	5,279,968	<u> </u>	
	\$ 11,514,708	\$ 53,238	

Amounts reported as deferred outflows of resources and deferred inflows of resources to pensions will be recognized in pension expense as follows:

\$ 1,537,266
1,447,070
1,612,507
1,244,970
224,146
11,543
\$ 6,077,502

Notes to the Financial Statements September 30, 2020

NOTE 18 - OTHER POSTEMPLOYMENT BENEFITS (OPEB) OBLIGATION

General Information about the OPEB Plan

Plan Administration: The City sponsors and administers a single-employer defined benefit health care plan, the Health Care Plan of the City of Bessemer (hereinafter referred to as the "Plan"). The Plan is used to provide postemployment benefits other than pensions for permanent full-time employees.

Management of the OPEB plan is governed by the City. The authority to establish and/or amend the obligation of the employer, employees, and retirees rests with the City. No assets are accumulated in a trust that meets the criteria in paragraph 4 of the Governmental Standards Board (GASB) Statement No. 75.

Benefits Provided: The Plan benefits provided in the City's retiree health care plan include health care, prescription drug, dental, vision, and life insurance. Medicare Supplement insurance is provided to eligible retirees upon Medicare eligibility age. Dental and vision coverage are offered in separate standalone plans and coverage is provided for the retirees' lifetime. Life insurance is provided for the retirees' lifetime.

Funding Policy: Under the Plan, the City pays the cost of pre-Medicare medical insurance premiums and lifetime dental insurance premiums based on the years of creditable service at retirement using the following schedule:

Age at Retirement	Years of Service With the City at Retirement	City Contribution Toward Retiree Coverage	City Contribution Toward Dependent Coverage
Any	30 or more*	100.0%	50.0%
Any	29	95.0%	47.5%
Any	28	90.0%	45.0%
Any	27	85.0%	42.5%
Any	26	80.0%	40.0%
Any	25	75.0%	37.5%
60	24	70.0%	35.0%
60	23	65.0%	32.5%
60	22	60.0%	30.0%
60	21	55.0%	27.5%
60	20	50.0%	25.0%

^{*} Any employee retiring under disability retirement with ten years of service with the City will receive the same benefits as if they had retired with thirty years of service with the City.

Notes to the Financial Statements September 30, 2020

NOTE 18 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) OBLIGATION – CONTINUED

General Information about the OPEB Plan - Continued

Upon reaching Medicare eligibility age, the City will provide retirees with C Plus Medicare Supplement insurance, only if they qualified for City contributions according to the years of creditable service at retirement. Members not qualifying for City contributions according to the schedule above may continue to participate in the City's pre-Medicare health and dental plans by paying the required insurance premiums. The City pays the full cost of vision coverage for all retirees for their lifetime. The City provides life insurance in the amount of \$3,000 to all retirees for their lifetime. The retiree may continue dependent coverage (and pay the required cost of this coverage) if enrolled in dependent coverage at the time of retirement. Dependents may continue Medicare Supplement insurance by paying the required cost of this coverage (50% of the C Plus Medicare Supplement if the retiree qualified for City contributions). Dependents may continue coverage in the pre-Medicare medical plan by paying the required premium rate upon the death of the retiree only if the retiree qualified for City contributions.

Plan Membership: At September 30, 2018, City plan membership consisted of the following:

Inactive Employees or Beneficiaries Currently Receiving Benefits	255
Inactive Members Entitled to but not yet Receiving Benefits	
Active Employees	<u>671</u>
Total Membership	<u>926</u>

Notes to the Financial Statements September 30, 2020

NOTE 18 – OTHER POSTEMPLOYMENT BENEFITS (OPEB) OBLIGATION – CONTINUED

Total OPEB Liability

Inflation

Vision

The City's total OPEB liability of \$38,390,525 was measured as of September 30, 2019, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions: The total OPEB liability was determined by an actuarial valuation as of September 30, 2018, using the following key actuarial assumptions and other inputs:

2.75%

	217570
Real wage growth Wage inflation	0.25% 3.00%
Salary increases, including wage inflation	3.25% - 5.00%
Municipal Bond Index Rate Prior Measurement Date	4.18%
Measurement Date	2.66%
Health Care Cost Trends	
Pre-Medicare	7.25% for 2018 decreasing to an ultimate rate of 4.75% by 2028
Medicare	5.38% for 2018 decreasing to an ultimate rate of 4.75% by 2022
Dental	4.00%

The discount rate used to measure the TOL was based on the September average of the Bond Buyer General Obligation 20-year Municipal Bond Index published at the last week during the month of September by The Bond Buyer.

Mortality rates for active employees were based on the sex distinct RP-2000 Employee Mortality Table projected with Scale BB to 2020 with an adjustment factor of 70% for males and 50% for females. Postretirement mortality rates on the sex distinct RP-2000 Blue Collar Mortality Table projected with Scale BB to 2020. An adjustment of 125% at all ages for males and 120% for females beginning at age 78 was made for service retirements and beneficiaries. An adjustment of 130% for females at all ages was made for disability retirements.

2.50%

Notes to the Financial Statements September 30, 2020

NOTE 18 - OTHER POSTEMPLOYMENT BENEFITS (OPEB) OBLIGATION - CONTINUED

The demographic actuarial assumptions for retirement, disability incidence, withdrawal, and salary increases used in the September 30, 2018 valuation were based on the results of an actuarial experience study for the period October 1, 2010 through September 30, 2015, and were submitted to and adopted by the Board of the Employees' Retirement System of Alabama on September 29, 2016.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, etc.) used in the September 30, 2018, valuation were based on a review of recent plan experience done concurrently with the September 30, 2018, valuation.

Schedule of Changes in Total OPEB Liability

Total OPEB Liability

Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended September 30, 2020, the City recognized OPEB expense of \$2,312,567. At September 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pension of the following sources:

	Deferred Outflows of	Deferred Inflows of
	Resources	Resources
Difference between expected and actual experience Changes in assumptions	\$ 458,808	\$ 2,216,885
Employer contributions subsequent to the Measurement Date	6,709,196	3,914,687
9	\$ 7,168,004	\$ 6,131,572

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB benefits will be recognized in OPEB expense as follows:

Year ended September 30:

	2020	\$ (88,266)
	2021	(88,266)
	2022	(88,266)
	2023	(88,266)
	2024	162,609
Thereafter		1,226,887
Total		\$ 1,036,432

Notes to the Financial Statements September 30, 2020

NOTE 19 - TAX ABATEMENTS AND INCENTIVE AGREEMENTS

The City is subject to GASB Statement 77, for the year ended September 30, 2020. This statement requires the City to disclose tax abatements granted by the City and other governmental entities that reduce the tax revenue of the City. The City and the Industrial Development Board of the City of Bessemer are involved with such abatements. GASB Statement 77 requires the City to disclose the amount of the taxes abated during the fiscal year. For purposes of this disclosure, the City chooses to disclose the aggregate information by type of taxes abated. The information below has been compiled after reasonable attempts to obtain the required information. The City makes no representation that the information is correct, complete, or the individual circumstances have not changed subsequent to this reporting.

The City offers abatements of certain state, county, and municipal ad-valorem taxes (noneducational portion), sales and use taxes, (noneducational portion), and mortgage and recording taxes with respect to the Project pursuant to the provisions of Act 92-599 enacted during the 1992 Regular Session of the Legislature of Alabama and now codified as Chapter 9B of Title 40 of the Code of Alabama (1975), as amended (herein called the "Tax Abatement Act").

From time-to-time, the City enters into economic and/or industrial development incentive agreements with entities that propose to locate businesses within the City or expand current businesses. All of this is in an attempt to develop a solid and diverse local economy, to increase employment opportunities in the City, to broaden the City's tax base, to increase revenues, and to provide necessary and improved services to the citizens of the City, thereby improving the quality of life of its citizens. In exchange for incremental jobs and/or incremental revenues created, the City will rebate all or a portion of sales and use taxes, occupational taxes, and other licenses and fees with these entities over a period of time and/or up to a capped dollar amount.

The City's tax revenues were reduced or rebated under the Tax Abatement Act and various economic and/or industrial development incentive agreements during the year ended September 30, 2020, as follows:

Municipal ad-valorem taxes (noneducational portion)	\$ 559,746
Sales and use taxes	865,072
Occupational taxes	4,465
Other licenses and fees	71
Total	\$ <u>1,429,354</u>

Notes to the Financial Statements September 30, 2020

NOTE 20 - PRIOR PERIOD ADJUSTMENTS

During the year ended September 30, 2020, the Water Service Department recorded a prior period adjustment regarding certain accounts and the Electric Service Department also recorded prior period adjustments regarding certain accounts of as follows which had the following impact on the net position:

Total Net Position	\$ (8,435,721)	\$ 6,271,888	\$ -	\$ (2,163,833)

NOTE 21 - REISSUED FINANCIAL STATEMENTS - The City identified the omission of its Coronavirus Relief Cares Act Grant Funds. The restated 2020 annual financial statements are therefore reissued on September 6, 2022.

Jumping forward in time, no significant events occur after September 17, 2021 (the date the 2020 financial statements were authorized for issue and issued) nor on or before September 6, 2022, the re-issue date of the 2020 annual financial statements.

Notes to the Financial Statements September 30, 2020

NOTE 22 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 17, 2021, the date which the financial statements were available to be issued.

Events occurring after September 30, 2020, have been evaluated for possible adjustment to the financial statements or disclosure as of September 17, 2021, which is the date the financial statements were available to be issued.

Reportedly, in the October 5, City Council meeting, the City's E-911 Fund is currently under investigation by the Alabama Department of Examiners of Public Accounts. Allegedly funds have been stolen from the E-911 Fund by misappropriating checks for the benefit of the perpetrator who is not an employee of the City of Bessemer, this matter is considered to be identity theft that happen with the financial institution and not at the City of Bessemer. The City inadvertently did not report this to its current independent audit firm, because the alleged misappropriation activity and investigation predates the appointment of the current auditor and the current audit period. At this point, the City reasonably estimate the dollar value of the losses to be \$53,000, which will not have a material adverse impact on the City's business, results of operations, financial position and cash flows. The City also anticipates that the financial institution will replenish the City's E-911 Fund account for the loss of these funds.

In December 2019, COVID-19 emerged and has subsequently spread worldwide. The World Health Organization has declared COVID-19 a pandemic resulting in federal, state and local governments and private entities mandating various restrictions, including travel restrictions, restrictions on public gatherings, stay at home orders and advisories and quarantining of people who may have been exposed to the virus. After close monitoring and responses and guidance from federal, state and local governments, in an effort to mitigate the spread of COVID-19, effective March 19, 2020, the City closed all of its lobby for at least one month and has temporarily required some employees work remotely from home where possible. The City continues to monitor developments, including government requirements and recommendations at the national, state, and local level to evaluate possible disruptive effects on the City operations.

In addition, the City has taken several steps to further strengthen its financial position and statement of net position, and maintain financial liquidity and flexibility, including, reviewing operating expenses, evaluating merchandise purchases, and reducing capital expenditures.

As the COVID-19 pandemic is complex and rapidly evolving, the City's plans as described above may change. At this point, the City cannot reasonably estimate the duration and severity of this pandemic, which could have a material adverse impact on its business, results of operations, financial position and cash flows.

City of Bessemer, Alabama

Statement of Constitutional Debt Limits

September 30, 2020

Constitutional Debt Limits

General. Pursuant to Section 225 of the Constitution of Alabama of 1901, no city, town or other municipal corporation having a population of 6,000 or more, except as hereinafter described, shall be indebted in an amount, including present indebtedness, exceeding twenty (20%) per centum of the assessed value of the property therein. The total assessed value of the property in the City as assessed for City taxation (including motor vehicles and net of exemptions) for the tax year that ended on September 30, 2020, for which taxes became due and payable on October 1, 2020, is \$573,413,340. Consequently, the general constitutional debt limitation currently applicable to the City is \$68,888,136.

The Constitution of Alabama excepts from the debt limit of cities having a population of 6,000 or more, such as the City, several categories of indebtedness. These are (i) temporary loans, to be paid in one year, made in anticipation of the collection of taxes and not exceeding one-fourth of the general revenues;

(ii) bonds or other obligations already issued, or which may hereafter be issued, for the purpose of acquiring, providing or constructing school houses, waterworks and sewers; (iii) obligations incurred and bonds issued for street or sidewalk improvements, where the cost of the same, in whole or in part, is to be assessed against the property abutting said improvements; and (iv) Section 94.01 indebtedness, discussed below. Further, under existing law, the amount of any indebtedness chargeable against the constitutional debt limit is reduced by the amount of any escrow or sinking fund held for the payment of such indebtedness. Indebtedness chargeable against the constitutional debt limit does not include obligations payable solely from the revenues derived from a project which was acquired with the proceeds of such obligations.

Excluding obligations which are not chargeable to its general constitutional debt limit because advance refunding escrows have been established for their payment, but including the Series 2013-A Warrants, the Series 2013-C Warrants, the Series 2014-E Warrants, the Airport Authority Funding Agreement, and the Compensated Absences Liability, the outstanding debt of the City chargeable against its general constitutional debt limit as of September 30, 2020, was \$45,794,532. Consequently, the City may hereafter incur additional indebtedness in the approximate amount of \$23,093,604 for other than exempt purposes without exceeding its general constitutional debt limit.

Future borrowing by the City for the purposes of acquiring, providing, or constructing schoolhouses, waterworks and sewers will not reduce the current unused general constitutional debt capacity of \$23,093,604. The constitutional debt capacity of the City will increase with any increase in the assessed value of taxable property in the City.

Section 94.01. By virtue of the provisions of Amendment 772 to the Constitution of Alabama of 1901 (now codified as Section 94.01 of said Constitution and herein referred to as "Section 94.01"), certain bonds, warrants, and other securities issued by the City for economic or industrial development purposes, which may themselves be issued without the necessity of approval of the electorate in an amount up to fifty percent (50%) of the assessed value of the property in the City, are not chargeable to the generally applicable twenty percent (20%) debt limit and may be additionally secured by a pledge of such taxes and other revenues as the City may levy for such purposes.

City of Bessemer, Alabama

Statement of Constitutional Debt Limits - Continued

September 30, 2020

Constitutional Debt Limits

The City's Series 2014-D Warrants were issued pursuant to the provisions of Section 94.01 to refund certain warrants that had been issued to finance various public infrastructures related to a commercial shopping center developed and constructed within the City. Accordingly, the Series 2014-D Warrants are not chargeable against the generally applicable debt limit of 20% of assessed value of property in the City, but rather are chargeable against the separate 50% debt limit of Section 94.01.

City of Bessemer, Alabama

Statement of Constitutional Debt Limits - Continued September 30, 2020

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of the City Council Bessemer, Alabama

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Bessemer, Alabama (the "City"), as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the City of Bessemer's basic financial statements and have issued our report thereon dated September 17, 2021, except for Note 21, as to which the date is September 6, 2022. Our report includes a reference to other auditors who audited the financial statements of the Governmental Utility Services Corporation, as described in our report on the City's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements, on a timely basis.

A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the following deficiencies described in the accompanying schedule of findings and recommendations to be material weaknesses: 2020-014.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

We consider the deficiencies described in the accompanying schedule of findings and recommendations to be significant deficiencies in internal control over financial reporting: 2020-012, 2020-013

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be and significant deficiencies;, and

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

City of Bessemer, Alabama's Response to Findings

The City's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The City's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN REQUIRED BY THE UNIFORM GUIDANCE

Honorable Mayor and Members of the City Council Bessemer, Alabama

Report on Compliance for Each Major Federal Program

We have audited the City of Bessemer, Alabama's (the "City"), compliance with the types of compliance requirements described in the *0MB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended September 30, 2020, except for Note 21, as to which the date is September 6, 2022. The City's major federal programs are identified in the summary of auditors' results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

96

We Work Hard to Give You Our Very Best

2100 South Bridge Parkway, Suite 650 • P.O. Box 360973 • Birmaingham, Alabama 35236 • 205-542-9874 • Fax: 205-822-0539 www.tpaaccountants.com • Eugene.Pitts@CPA.com

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2020.

Report on Internal Control over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Schedule of Expenditures of Federal Awards For the Year Ended September 30, 2020

NOTE A - BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the Schedule) includes the federal award activity of the City of Bessemer, Alabama (the Government) under programs of the federal government for the year ended September 30, 2020. The accompanying notes are an integral part of this schedule. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Government, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Government.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards*, wherein certain types of expenditures may or may not be allowable or may be limited as to reimbursement. The Government has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE C - MATCHING REQUIREMENTS

Certain Federal programs require the Government to contribute nonfederal funds (matching funds) to support the federally-funded programs. The Government has met its matching requirements. The Schedule does not include the expenditure of nonfederal matching funds.

Section II: Financial Statements Findings

Finding 2020- 012 <u>Electronic Municipal Market Access (EMMA) Compliance</u>

Condition: In connection with its debt obligations, the City did not timely file such annual

financial information and operating data for the current year-end to the Municipal Securities Rulemaking Board pursuant to the requirements of Section (b)(5) of Rule 15c2-12 (the "Rule"), as amended, adopted by the Securities and Exchange Commission (the "SEC") under the Securities

Exchange Act of 1934, as amended.

Criteria: The City undertook to provide annual filings of certain financial information

and operating data of the City to the Electronic Municipal Market Access

system 180 days after the close of the City's fiscal year-end.

Effect: Non-Compliance with the requirements of Section (b)(5) of Rule 15c2-12 (the

"Rule"), as amended, adopted by the Securities and Exchange Commission (the

"SEC") under the Securities Exchange Act of 1934, as amended.

Recommendation: We recommend that the City comply with the requirements of Section (b)(5) of

Rule 15c2-12 (the "Rule"), as amended, adopted by the Securities and Exchange Commission (the "SEC") under the Securities Exchange Act of 1934, as amended by timely closing the books within 90 days of the fiscal year- end to facilitated the completion of the City's Audit by Mar 30 of each

fiscal year-end.

Corrective Action: The City has filed the appropriate notices and will file the required annual

filings with the Municipal Securities Rulemaking Board via its Electronic

Municipal Market Access (EMMA) system upon release of the City's financial

statements.

Section III: Federal Awards Findings

Finding 2020-013

Federal Grant Report (Compliance Supplement)

Condition:

The City did not submit its single audit reporting package related to the City's Federal Entitlement Grant requirements by the deadline required by rule 2 CFR section 200.512 (a) of the Federal Compliance Supplement.

Criteria:

Rule 2 CFR section 200.512 (a) of the Federal Compliance Supplement require that the City complete and submit its single audit reporting package for fiscal year September 30, 2020 by the due dates of the earlier of 30 calendar days after receipt of the auditor's reports or within nine months (June 30, 2021) after the September 30, 2020 fiscal year-end.

Effect:

Noncompliance with Rule 2 CFR section 200.512 (a) of the Federal Compliance Supplement.

Recommendation:

We recommend that the City comply with the requirements of Rule 2 CFR section 200.512 (a) of the Federal Compliance Supplement by the due date of 30 calendar days after receipt of the auditor's reports or nine months (June 30) after the September 30 fiscal year-end by timely closing the City books of accounting within 90 days of the fiscal year-end to facilitated the completion of the City's Audit by Mar 30 of each fiscal year-end.

Corrective Action:

The City has completed and will submitted its single audit reporting package for fiscal year September 30, 2020 as required by Rule 2 CFR section 200.512 (a) of the Federal Compliance Supplement upon release of the City's financial statements.

Finding 2020-014

U.S. Department of Treasury

Pass through Agency: Jefferson County Coronavirus Relief Fund Under Cares Act

CFDA: 21.019

Condition:

The City received Coronavirus Relief Funds the Under Cares Act in the amount of \$889,135 from the U.S. Department of Treasury -grantee, for damages resulting from Covid19 in September 2020. The City did not report the assistance received and expended as pass-through funds on the Schedule of Expenditures of Federal Awards (SEFA) for the year 2020 and consequently, the assistance was not included in the annual Single Audits of the City.

Criteria:

Title 2 U.S. Code Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (Uniform Guidance), states that the schedule of expenditures of federal awards should provide, in part, total Federal awards expended (including federal awards passed-through to the entity by another agency) for each individual federal program.

Cause:

The City officials stated that exclusion of the federal assistance from the Schedule of Expenditures of Federal Awards (SEFA) was an oversight and that the City inadvertently failed to report the CARES ACT funds it received for the Covid19 relief to its independent audit firm.

Effect:

Because the expenditures for the Care Act Grant Award were not identified and reported by the City to its independent audit firm as required in the Schedule of Expenditures of Federal Awards, they were not subjected to compliance audit procedures under the Title 2 U.S. Code Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (Uniform Guidance) in the City fiscal year of September 30, 2020.

Recommendation:

We recommend that the City adhere to the requirements of Title 2 U.S. Code Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (Uniform Guidance and include all required federal expenditures in the Schedule of Expenditures of Federal Awards.

Corrective Action:

All amounts of federal grant wards received will be reported in the Single Audit Schedule of Expenditures of Federal Awards (SEFA) going forward.

The Office of Kenneth E. Gullev Mayor

1700 Third Avenue, Bessemer, AL 35020 (205) 424-4060 FAX: (205) 424-4372 Email: mayorsoffice@bessemeral.org

CITY OF BESSEMER, ALABAMA CORRECTIVE ACTION PLAN

FOR THE FISCAL YEAR ENDED SEPTEMBER 30, 2020

The Fiscal Year 2020 Single Audit identified three internal control issues. The first issue was related to the timely filing of the audit report to Municipal Securities Rulemaking Board via the Electronic Municipal Market Access (EMMA), the second issue was for untimely submission of the audit report to the Federal Clearinghouse, and the third issue was the omission of the proceeds received from the Coronavirus Relief Funds Cares Act. The findings, and the corresponding corrective action taken on behalf of the City, are noted below. The Finance Department is optimistic the corrective action plan will reduce, or eliminate errors related to the Schedule of Expenditures of Federal Awards (SEFA) and facilitate the timely financial reporting for the benefit of the City and the City's contractual and compliance obligations to timely file audit reports as required by agreements and regulations.

Non-Material Non-Compliance - Reporting

Finding 2020-012

Electronic Municipal Market Access (EMMA) Compliance

Condition:

In connection with its debt obligations, the City did not timely file such annual financial information and operating data for the current year-end to the Municipal Securities Rulemaking Board pursuant to the requirements of Section (b)(5) of Rule 15c2-12 (the "Rule"), as amended, adopted by the Securities and Exchange Commission (the "SEC") under the Securities

Exchange Act of 1934, as amended.

Criteria:

The City undertook to provide annual filings of certain financial information and operating data of the City to the Electronic Municipal Market Access

system 180 days after the close of the City's fiscal year-end.

Effect:

Non-Compliance with the requirements of Section (b)(5) of Rule 15c2-12 (the "Rule"), as amended, adopted by the Securities and Exchange Commission (the

"SEC") under the Securities Exchange Act of 1934, as amended.

Recommendation:

We recommend that the City comply with the requirements of Section (b)(5) of Rule 15c2-12 (the "Rule"), as amended, adopted by the Securities and Exchange Commission (the "SEC") under the Securities Exchange Act of 1934, as amended by timely closing the books within 90 days of the fiscal year- end to facilitated the completion of the City's Audit by Mar 30 of each

fiscal year-end.

Views of Responsible Officials: The City has filed the appropriate notices and the required annual audit report filing with the Municipal Securities Rulemaking Board via EMAA. Management agrees with the finding and is implementing procedures to correct this which is further discussed in the corrective action plan.

Corrective Action Plan: The following actions will be taken:

- Finance will endeavor to close the City books in a timely manner to facilitate the completion of the annual financial statement audit to allow for the submission of the audit report as required by EMMA.
- Finance will staff its department back to pre-covid19 levels.
- Finance will develop a formal calendar driven year-end books of accounting records closing. schedule with a six month after fiscal year end completion date (March 31).

Material Non-Compliance - SEFA

Finding 2020-013

Federal Grant Report (Compliance Supplement)

Condition:

The City did not submit its single audit reporting package related to the City's Federal Entitlement Grant requirements by the deadline required by rule 2 CFR section 200.512 (a) of the Federal Compliance Supplement.

Criteria:

Rule 2 CFR section 200.512 (a) of the Federal Compliance Supplement require that the City complete and submit its single audit reporting package for fiscal year September 30, 2020 by the due dates of the earlier of 30 calendar days after receipt of the auditor's reports or within nine months (June 30, 2021) after

the September 30, 2020 fiscal year-end.

Effect:

Noncompliance with Rule 2 CFR section 200.512 (a) of the Federal Compliance Supplement.

Recommendation:

We recommend that the City comply with the requirements of Rule 2 CFR section 200.512 (a) of the Federal Compliance Supplement by the due date of 30 calendar days after receipt of the auditor's reports or nine months (June 30) after the September 30 fiscal year-end by timely closing the City books of accounting within 90 days of the fiscal year-end to facilitated the completion of the City's Audit by Mar 30 of each fiscal year-end.

Views of Responsible Officials: Management agrees with the finding and is implementing procedures to correct this which is further discussed in the corrective action plan.

- Corrective Action Plan: The City has completed submitted its single audit reporting package for fiscal year September 30, 2020 as required by Rule 2 CFR section 200.512 (a) of the Federal Compliance Supplement. The Finance Department understands the reporting requirement. The Finance Department will endeavor to close the City books in a timely manner to facilitate the completion of the annual financial statement audit to allow for the submission of the audit report as required by rule 2 CFR section 200.512 (a) of the Federal Compliance Supplement.
- Finance will staff its department back to pre-covid19 levels.
- Finance will develop a formal calendar driven year-end books of accounting records closing. schedule with a six month after fiscal year end completion date (March 31).

Material Non-Compliance - SEFA

Finding 2020-014 U.S. Department of Treasury

Pass through Agency: Jefferson County Coronavirus Relief Fund Under Cares Act

CFDA: 21.019

Condition: The City received Coronavirus Relief Funds the Under Cares Act in the amount of

\$889,135 from the U.S. Department of Treasury, grantee, for financial losses resulting from Covid19 prevention and protection costs in September 2020. The City did not report the assistance received and expended as pass-through funds on the Schedule of Expenditures of Federal Awards (SEFA) for the year 2020 and consequently, the assistance was not included in the annual Single

Audits of the City.

Criteria: Title 2 U.S. Code Federal Regulations Part 200, Uniform Administrative

Requirements, Cost Principles, and Audit Requirements of Federal Awards (Uniform Guidance), states that the schedule of expenditures of federal awards should provide, in part, total Federal awards expended (including federal awards passed-through to the entity by another agency) for each individual federal

program.

Cause: The City officials stated that exclusion of the federal assistance from the Schedule

of Expenditures of Federal Awards (SEFA) was an oversight and that the City inadvertently failed to report the CARES ACT funds it received for the Covid19

relief to its independent audit firm.

Effect: Because the expenditures for the Care Act Grant Award were not

identified and reported by the City to its independent audit firm as required in the Schedule of Expenditures of Federal Awards, they were not subjected to compliance audit procedures under the Title 2 U.S. Code Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (Uniform Guidance) in the City fiscal year of September 30,

2020.

Recommendation: We recommend that the City adhere to the requirements of Title 2 U.S. Code

Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (Uniform Guidance and include all required federal expenditures in the Schedule of Expenditures of

Federal Awards.

Views of Responsible Officials: Management agrees with the finding and is implementing procedures to correct this which is further discussed in the corrective action plan.

Corrective Action Plan: All amounts of federal grant wards received will be reported in the Single
Audit Schedule of Expenditures of Federal Awards (SEFA) going forward. All Federal Awards
reported in the books of records will be agreed to the SEFA as part of the year-end closing procedures.
